

The Bloom/P.O.D. Ministry will strive to create a community environment where the Holy Spirit and God's Word will be proclaimed in such a way as to cause spiritual transformation and multiplication.

The seven essential transformational teaching topics were chosen and refined after decades of experience and observing a need to provide to the church an integrated and comprehensive process for disciple making. Each lesson is taught in the context of community and will help satisfy the churches call to equip the saints, "for the perfecting of the saints, for the work of the ministry, for the building up of the body of Christ" Eph. 4:12.

The process of teaching the seven transformational topics, in the context of small group interaction (P.O.D.), has proven to produce everlasting benefits (Bloom). It truly is a Win, Win, Win proposition.

Seven Essential Transformational Teaching Topics

In the Great Commission Jesus commanded the disciples “...teach them to obey all that I commanded you....” Obedience is a reflection of the love of God working in and flowing through believers; thus fulfilling the Great Commandment.

***The fruit of a disciple’s obedience is fulfillment of the Great Commandment, which is to love; a Win, Win, Win:**

- God is glorified.
- Others experience God’s love flowing in and through you.
- You will be blessed now and forever with fruit of the Spirit and intimacy with God and others.
